RE: Kents Hill School – Campus Upgrade Project

Mr. Kelly:

I would like to express my gratitude for a job well done on the above referenced project. Although your bid was the lowest of 3 bids by a significant margin, as an Engineer I was very impressed with the quality of your work. I found your paperwork to be accurate and timely, and you worked well with us to solve problems. I was also impressed with the condition and cleanliness of your vehicles and equipment. Your crews worked rapidly and with good attitudes. You delivered a first class project at Kents Hill School.

I also appreciate the fact that you always made safety of your crews and our students such an important part of the project.

I would highly recommend Enterprise Electric for any site electrical project and look forward to working with you on future jobs.

Sincerely,

**Brian Marston
Director of Plant & Facilities
Kents Hill School**
