ATTN: Jeff Kelley

Dear Mr. Kelley:

In Maine, many of us will remember April 2007 for the strong storms that brought so much damage to our communities. Patriot's Day brought the third major storm in as many weeks to the CMP service area, leaving more than 125,000 homes and businesses without power. Our already-tired crews were facing destruction equal to the aftermath of Hurricane Gloria more than twenty years ago.

While I'll always be proud of the way our company responded, I will also always be grateful for the assistance we received from companies like yours. Almost before the storm had passed, crews were headed our way from as far off as Pennsylvania, western New York, and New Brunswick, Canada. With your help, we were able to pull together a workforce of more than 1,000 frontline crews. To everyone's relief, the restoration went smoothly and without a serious injury despite the magnitude of the task.

The April storms put everyone to the test, including those who came to our assistance, and we passed with flying colors. To keep those accomplishments in our memory a little longer, please share the enclosed hats with those who came to Maine when we needed them. Please, thank them on behalf of everyone at CMP and on behalf of our customers, and ask them to wear their hats with pride.

Sincerely,

Sara J. Burns
